the time is the 23rd century the threat of computer viruses each more advanced than the last looms ever higher but one in particular an intelligent computer virus born of a i research doesn t just attack computers but infects people turning them into cybers zombie like killers it s the mission of ex navy seal daniel darkeye to protect the populace from this spreading menace for him and his sexy partner in arms raven blackheart it s a chance for vegeance on the living plague that destroyed everything and everyone they cared for herewith are the secretly obtained logs detailing the greatest and most secret of wars humankind has ever fought

we study a longitudinal sample of over one million french workers and over 500 000 employing firms real total annual compensation per worker is decomposed into components related to observable characteristics worker heterogeneity firm heterogeneity and residual variation except for the residual all components may be correlated in an arbitrary fashion at the level of the individual we find that person effects especially those not related to observables like education are the most important source of wage variation in france firm effects while important are not as important as person effects at the level of firms we find that enterprises that hire high wage workers are more productive but not more profitable they are also more capital and high skilled employee intensive enterprises that pay higher wages controlling for person effects are more productive and more profitable they

are also more capital intensive but are not more high skilled labor intensive we also find that person effects explain 92 of inter industry wage differentials

reports of all decisions rendered in insurance cases in the federal courts and in the state courts of last resort
